High Performance Industrial Controller

The ProCon[®] D400 series is an extremely robust industrial pH/ORP controller.

The modular design is both easy to install and operate providing first measurement values in under one minute.

The D400 is packed with all the extra features included, no need to pay extra for relay, 4-20mA or RS485 outputs.

The SimplCal[®] feature makes calibrating your sensor easier and quicker than ever before.

The cost-saving quick and easy setup is done through our user-friendly step by step on-screen menu.

Active display of red alarm LED provides notification of out-of-bounds sensor readings and indication for sensor cleaning/recalibration or replacement.

Enclosure

The D400 is packaged in a rugged polycarbonate enclosure making it ideally suited for heavy-duty applications. A mounting kit is included for surface and panel mounting. Pipe mounting kits are available.
