

PRODUCT OVERVIEW

ULTRAFIX™ REPAIR COUPLING

UltraFix™ repair coupling is the ultimate solution for quick and reliable pipe repairs in tight spaces. Designed for efficiency, this innovative coupling allows you to fix broken pipes or install valves without the hassle of replacing large pipe sections. Featuring dual EPDM internal O-rings for a leak-free seal throughout the pistons full travel length, ½" – 2" sizes UltraFix helps ensure secure performance & durability you can trust. Whether used as a repair coupling or an expansion joint, its high-pressure rating and long-lasting construction make it a "bury it and forget it" solution for any plumbing or irrigation system.

UltraFix repair couplings ½" – 2"

- Compact in design to fit into small places.
- Repair a broken pipe or install a valve without replacing a large section of pipe.
- Dual EPDM O-Rings: Seals throughout pistons full travel.
